THE GOVERNMENT CENSUS.

Enumerators Will be Required to Stand Examination.

An examination of applicants for local census enumerators will be held at Statesboro February 6th. Applicants for these positions are now receiving instruction blanks, accompanied by the necessary papers to secure their admittance to the examination.

Each applicant is required to make formal application, to be filled out in his own handwriting, stating qualifications and former experience, if any, such application to be endorsed by two responsible citizens. In making appointments, preference will be given to those having former experience. The work of enumeration is to be done during the month of April, and the pay is contingent upon the amount of work to be done. In addition to the name, age, color and occupation, a record will be required of each person's birth place, parents' names, place of birth, etc. The pay for enumeration will be from 3 to 6 cents for each name, and from 20 to 40 cents for each farm or industry.

Want a Home Built?

I am now having built in beautiful Highland Park a handsome \$1,500 cottage for rent to a desirable tenant. Will be ready March 1st. Will build others for rent or sale on easy terms. See me if you want a home.

Dr. J. T. ROGERS.

Dr. Deal at Stillson.

Dr. Daniel Deal, for two years located at Pulaski, where he has been associated with Dr. J. Z. Patrick in the practice of medicine, has moved to Stillson, where he will continue the practice in the vicinity of his old home. Dr. D. B. Edwards, who has recently been located there, will seek a new location.

Sea Island Cotton Seed.

It always pays to plant the best seed, as results are better. I can supply you with the very best seed grown on the islands at Charleston. Place your order early as the supply of seed is limited.

E. D. HOLLAND.

Dr. McCrackin to Move.

It is learned with regret that Dr. H. C. McCrackin, who has been located at Register for the past five years, is arranging to leave Bulloch county. He has sold his home at Register to Mr. B. R. Olliff, and will leave this week for either New York or Chicago to take a postgraduate course in medicine, after which he will seek a new location.

Dr. Henry Olliff will locate at Register to occupy the field vacated by Dr. McCrackin.

Fire Insurance.

I will protect your property—town and country—with a reliable old line Fire Insurance Company policy. Costs little; protection ample and all losses paid promptly. See me about it.

F. B. Hunter, Agt.

Statesboro, Ga.

The man with polished manners always shows you his bright side.

It's funny how a man who can sit patiently and hold a 140-pound girl on his lap until 2 o'clock in the morning every day in the week will kick up a terrible rumpus a year or so afterwards about holding a 10-pound girl for fifteen minutes.

Farm to Rent.

One-horse farm 2 1/2 miles from Statesboro, good buildings; share crop or standing rent.

L. O. AKINS.

Statesboro, Ga.

Speaking of the productive soil of Kansas a land agent says: "Not long ago a man threw half a link of bologna out the car window and when the train came back the next day it ran through a pack of 150 dogs and killed a good many of them." If a man would scatter a little of the root of evil around in a country like that at about 10 o'clock in the morning he could come around after dinner and find a government mint in full operation.

Hog Stray.

Strayed from my place, near Williams, Outland & Co.'s still, on Thursday, 13th inst., one white and black spotted sow; long tail; marked crop in one ear, split in the other. PRAS WILDER.

"Men who stay at home every night are not good for anything," says Dr. Julia Holmes Smith. We would say that such men are at least good husbands, and fathers and are setting a pretty fair example for their boys.

Notice.

This is to inform the public that I have moved my tailor shop to the laundry on North Main street, where I shall be pleased to have all my customers call and see me, as I am always willing to wait on you. Good work guaranteed. Respectfully, FRED D. FURBER, Tailor.

Money to Loan.

We are prepared to make quick loans on improved farm lands in Bulloch county. We will renew your old loans.

DEAL & RENFREW,

Statesboro, Ga.

Guano Ready for Delivery.

My warehouses at Statesboro are now stocked with the well-known goods of the Virginia Carolina Chemical Co. These goods contain large quantities of fish scrap, which is largely advertised as one of the best elements in commercial fertilizers.

Warehouses are attended by Mr. M. M. Donaldson, who will make prompt delivery of goods. See me before you buy. W. L. STREET.

Wanted.

A settled woman without any encumbrance to assist in cooking and general house work. Will pay fair wages. Address Mrs. J. B. JOHNSON, Pulaski, Ga.

For Sale or Rent.

House and lot in the town of Metter; house contains five rooms; good sized lot; will rent cheap or sell at a bargain. Address W. A. TRAPNELL, Metter, Ga.

Ordinary's Notices.

C. C. Moseley has applied for leave to sell the lands of Mrs. A. E. Moseley, deceased.

D. B. Mikell has applied for leave to sell the lands belonging to Margaret E. Mikell, deceased.

S. C. Banks has applied for leave to sell the lands of L. J. Banks, deceased.

Elmer Daughtry has applied for leave to sell the lands of the estate of R. A. Daughtry.

Raford Simmons has made application to require titles to certain lands described in a bond for title signed by R. F. Miller, deceased.

Sheriff Sales.

On the first Tuesday in February, 1910, will be sold before the court house door, at sheriff sale, the following property:

One 3-horse wagon, farm tools, 12 bushels corn, 500 bundles fodder, one corn sheller, one adz, two hand saws; the property of Frank Powell; levy in favor of Daniel Sims & Palmer.

200 acres land in the 4th district; the property of T. J. Arline; levy in favor of Mrs. Missouri Bland.

One tract of land (1 1/2 acres) in the town of Pulaski; the property of W. R. Lee; levy in favor of H. R. Williams.

One mule, one survey with tongue and harness, one open buggy and harness, and one 3-horse wagon and harness; the property of J. K. Green; levy in favor of Blitch-Farish Co. and others.

One mule about 9 years old; the property of M. L. Scott; levy in favor of J. N. Newton.

A certain lot in the town of Aaron; the property of W. D. Woods; levy in favor of Zola Cassidy.

One mule about 8 years old, one open buggy, one Jersey cow; the property of W. O. Miller; levy in favor of First National Bank.

Administrator's Sales.

A. W. and D. B. Warnell give notice of sale, on the first Tuesday in February, of the property of Z. S. Warnell, as follows: One half, undivided interest, in the 134th district; one-half interest in 307 acres in the same district; one tract of 73 acres in the 19th district, Bryan county; one tract, in tract containing one and five-eighths acres in the 19th district; one-half interest in 10-acre tract in the 19th district; one certain lot of land in the town of Groveland; one-half interest in one certain lot of land in the town of Groveland.

J. H. Burness, administrator of M. H. Burness, will sell three tracts of land belonging to the estate of said deceased, all located in the 134th district, as follows: One tract containing 165 acres; one tract containing 121 acres, and one tract containing 104 acres.

Joeley E. Akins will sell one tract, 29 acres, belonging to the estate of B. T. Berough, deceased, located in the 4th district.

C. C. Moseley, administrator of E. C. Moseley, deceased, will sell three tracts of land belonging to said deceased, one tract containing 268 acres in the 120th district, the property of Sadie Wilson; one tract containing 200 acres in the 4th district; one tract containing 157 acres in the 4th district; also 30 shares of the capital stock of the Sea Island Bank.

M. J. McElven will sell one-half undivided interest in the mill timber on that tract of land (200 acres) in the 4th district, the property of Sadie Wilson.

A. M. Deal, administrator John Deal, deceased, will sell the following tracts belonging to the estate of said deceased: 16 acres in the 120th district, bounded by lands of C. H. Allen and others; 79 acres in the 120th district, bounded by W. H. Waters and others.

These materials must be ground to a powder, and it requires machinery costing thousands of dollars to do it properly. They must then be so manipulated that when complete, you have a compound, each ounce of which is exactly like every other ounce, and not a mixture, one part of which would contain too much Ammonia and too little Potash, while another part would be exactly the opposite—and all of it contain plant food locked up and not available.

Remember that the chemical analysis of a fertilizer is no test of its crop growing qualities. The chemist can pulverize lumps and by the use of various means search out the plant food; your crop can't.

You can take an axe, break open the box and get the corn; your mule can't!

Don't risk a crop failure!

Insure your peace of mind as well as your crop by using

Armour's Animal Ammoniated Fertilizers

Manufactured by **Armour Fertilizer Works** ATLANTA, GEORGIA

Put on Your Thinking Cap and take up the question of pure drugs. Do you think a pharmacist can be too careful in putting up prescriptions? Do you agree with that party of the ingredients is all-important? And what about their freshness and quality? We watch all the little details, and our pharmacist is a graduated pharmacist. You can rely upon us.

BULLOCH DRUG CO., South Main St., Statesboro, Ga.

There is more to a Fertilizer than Analyses

The mere mixing of materials to obtain analysis requires no special knowledge. The value of a fertilizer lies in the source from which the plant food is obtained.

Each ingredient in Royster goods is selected with a view of supplying the plant from sprouting until harvest. The plant is not overfed at one time and starved at another. Twenty-five years experience goes with every bag.

F. S. Royster Guano Co. NORFOLK, VA.

Cabbage Plants

I take this method of notifying the public that I am prepared to furnish fine Cabbage Plants on short notice. My plants were grown from the very best selected seeds, and I guarantee them to be the very best. They are native grown and will suit this climate. I have a large number of them now ready for shipment.

All the leading varieties such as the Late Flat Dutch, Large Drumhead, Early York and Jersey Wakefield. Orders filled by first Express leaving after receipt of same.

Per 100, 25¢; 1,000, \$1.50; 5,000 lots, \$1.25.

BOYS' CORN CONTEST, 1910

ANNOUNCEMENT OF PRIZES AND CON-DITION OF AWARDS TO BE MADE.

Through the efforts of Ben S. Mooney, special agent of the Farmers' Co-operative Demonstration Work, the banks and business men of Statesboro have subscribed a fund of fifty dollars as a prize for the boys of Bulloch county in the 'Boys' Corn Contest for 1910.' The fifty dollars will be divided in three prizes, as follows:

First prize, \$25.00; second prize, \$15.00; third prize, \$10.00. Congressman Edwards offers a two-horse plow and other valuable prizes will be given.

RULES.

1. Boys entering the contest must be residents of Bulloch county, and under 18 years of age.

2. Each contestant must cultivate at least one acre in corn under Demonstration methods.

3. Exhibits must be delivered to the president of First Congressional District Agricultural college by Oct. 22, 1910.

4. The amount of the yield and the method of measurement must be certified by each boy and attested by at least two disinterested witnesses who shall be satisfactory to the president.

Guano Ready for Delivery.

My warehouses at Statesboro are now stocked with the well-known goods of the Virginia-Carolina Chemical Co. These goods contain large quantities of fish scrap, which is largely advertised as one of the best elements in commercial fertilizers.

Warehouses are attended by Mr. M. M. Donaldson, who will make prompt delivery of goods. See me before you buy.

W. L. STREET.

Whatley-Walker.

Mrs. Payson Sparks Whatley, of Newnan, announces the engagement of her daughter, Ruth, and Dr. James Edward Walker, of this city, the marriage to take place at 5 o'clock, February the 12th, at the home of the bride.

Miss Whatley spent the weekend with Miss Mattie Adams in the early fall, and with her charming manner made many friends who will welcome her to Macon.

Although Dr. Walker has only lived in Macon for the past two years, he has risen rapidly in his profession and is now one of the leading dentists of the city. He is also prominent in the social world, belonging to the various clubs.

A number of Macon people will go to the wedding, which will be one of the loveliest events of the season in Newnan. Macon News.

ANDREW WATSON IN THE TOILS

IN HIS SLEEP CONFESSED SHOOTING DONALDSON AND KENNEDY.

Baltimore, Md., Jan. 20.—Because he told in his sleep of the shooting of Deputy Sheriff Donaldson and Andrew J. Kennedy in Bulloch county, Georgia, more than eleven years ago, Benjamin Jones, alias Andrew Watson, is under arrest here, charged with killing the two men.

The negro denies that he has killed anyone, but admits that he has been in Bulloch county.

It is declared by Mollie Gowan, a negro woman with whom Jones boarded here, that the negro has acted even the part he is alleged to have taken in the double shooting, going through the motions in his sleep of firing a gun, and calling the names of the men who would fall before his shots.

The woman told the story of the sleep-walker's queer actions and someone wrote to the authorities at Statesboro, Marshal Farnan then received word from Bulloch county that the negro was believed to be in Baltimore, and this morning Detective Burns found the negro at work on a building here and placed him under arrest. He is now held for the Georgia officers, and it is believed in his capture he solved the mystery of the disappearance of at least one of the negroes who were responsible for the shooting in Bulloch county.

The shooting occurred Oct. 11, 1898, and the search for Jones, or Watson, has continued since. The shooting occurred from the house of a negro named Sam Jackson. For the arrest of one of the slayers a reward of \$500, it is understood, was offered.

The clue that led to Jones' arrest was given by the Gowan woman because, as she declared, Jones had been ill-treating her and has finally left her.

The peculiar cause that led to the negro's arrest is regarded by the police here as marking the case as one of the most unusual with which they have had to deal in a long while.

In reference to the above, Sheriff Kendrick is in receipt of a photograph of the man referred to, which is declared not to be that of Andrew Watson. The photograph shows a negro with a full head of hair, while Watson's hair was thin on top; Watson measured 6.1; and weighs 185 against Watson's weight 165.

There is a mystery connected with the story of the arrest as above described, which Sheriff Kendrick does not quite understand. He had been in correspondence with the officials at Baltimore regarding Watson, whom he suspected might be in that city, and he thinks much of the sensational features above described were manufactured either by or for the newspaper reporter.

Whatley-Walker.

Mrs. Payson Sparks Whatley, of Newnan, announces the engagement of her daughter, Ruth, and Dr. James Edward Walker, of this city, the marriage to take place at 5 o'clock, February the 12th, at the home of the bride.

Miss Whatley spent the weekend with Miss Mattie Adams in the early fall, and with her charming manner made many friends who will welcome her to Macon.

Although Dr. Walker has only lived in Macon for the past two years, he has risen rapidly in his profession and is now one of the leading dentists of the city. He is also prominent in the social world, belonging to the various clubs.

A number of Macon people will go to the wedding, which will be one of the loveliest events of the season in Newnan. Macon News.

NOTED GATHERING OF FARMERS

INSTITUTE TO BE HELD HERE FOR THREE DAYS NEXT WEEK.

Savannah, Jan. 24.—President E. C. J. Dickens, of the First District agricultural school at Statesboro, is busy arranging to hold a three days' special school for farmers beginning next Monday and lasting through Wednesday. Dr. Soule, of the state college of agriculture, and some of his faculty are conducting a series of itinerant schools for the farmers. President Dickens got busy and landed one of them at Statesboro.

Mr. Dickens is in the city today. When seen by the Press he said: "We are making an effort to give the farmers of the First district some practical help in this school next week. We are teaching their sons daily the science of farming at our school. They will help their parents when through with our course. But the farmer who has not had the opportunity of such training needs it. There is no use for our farmers to spend labor and money to make a half crop. That day is fast passing in Georgia. There are valuable facts and suggestions about fertilizers and planting and cultivating crops and the selection of seed."

"I am glad to state that the First district school is now prepared to give these sons of toil some help. We will have men to lecture who know what to teach—practical farmers.

BULLDOCH TIMES

ESTABLISHED 1922.

Published Weekly By THE BULLDOCH TIMES PUBLISHING CO.

D. B. TURNER, Editor and Manager.

SUBSCRIPTION, \$1.00 PER YEAR.

Entered as second class matter March 23, 1922, at the postoffice at Statesboro, Ga., under the Act of Congress, March 3, 1879.

If you want to get things coming your way and to find life is clear, recommends the Philadelphia Record.

If they succeed in kidnapping Mr. Rockefeller, will he give his ear to his ransom? Inquires the Atlanta Constitution.

A Georgian complains that his wife "has hypnotized him." That is a half woman here. Otherwise, remarks the Charleston News and Courier, there would be no marriages.

Photography, unknown in 1835, has given the astronomer assistance of immense value, claims the New York Tribune. It furnishes permanent records of fleeting phenomena. It makes possible the multiplication of copies of the original picture and leaves the expert free to examine delicately features which may at any moment disappear from the telescopic view. Besides, it preserves with absolute fidelity details which even the most skillful artist could not hope to reproduce with the pencil. How Halley and Herschel would have envied the present generation of their successors if they could have foreseen this advance!

A man who had taken several meals at a vegetarian restaurant in the shopping district recently invited some friends to a similar meal at his home. The dinner, relates the New York Tribune, consisted of pea soup, followed by radishes, celery and olives. Then came an entree of "very fancy eggs," and then, as the fly-bill of fare stated, "in lieu of meat," cutlets made of nut paste. With these were served rice, mashed potatoes and green corn. Fruit salad, pudding and coffee closed the meal. The next day the four guests sent this note to their vegetarian host: "It was a good meal—all but the cutlets; they should have been veal. We are vegetarians, with a little meat on the side."

Moving pictures are produced, as is well known, by a film traveling with reflected motion before a projector or lantern which throws successive views on the screen. The same result, asserts the Scientific American, could be obtained if the pictures were stationary and the audience itself were in motion, so as to view the pictures successively. An ingenious inventor has hit upon this scheme to relieve the monotony of subway travel. He proposes to mount a continuous band of pictures at each side of the subway and have these pictures successively illuminated by means of lamps placed behind them. The circuits of the lamps would be successively closed by means of a shoe upon the subway car engaging contact plates at each side of the track.

Chrysanthemums stand fourth in commercial importance among flowers. Only the rose, the violet and the carnation surpass them—and that chiefly because the chrysanthemum season is so short, while the others can be had from the florist nearly the whole year round. Greece gave us the name. Chrysanthemum means "golden flower," explains the Ardena. But the name was invented long before the big butter-yellow globes were known in the Occident. It referred to the prevailing gold in the small varieties that were known. Strangely enough, the first chrysanthemum brought into Europe was not gold at all, but purple. It was a small flower about two inches across, shaped like an aster. Somebody took it to Europe from China in 1792, and presto! the modern history of chrysanthemums was begun. London exhibitors have very particular notions of what constitutes the perfect chrysanthemum. Their ideal is the so-called "heavenly" type, which carries large, strange petals, pointing upward and overlapping each other in perfect precision. Americans think the "reflexed" type, with their showery of gold, white and other colors are equally beautiful and more interesting. The newest American bloom is seventeen inches in diameter, the smallest about the size of a collar button.

MEAT BOYCOTT SPREADS

Wholesale Price of Beef Falls Off 15 Cents in Cleveland.

THOUSANDS JOIN MOVEMENT

By Refraining From Eating Meat for Thirty Days Boycotters Hope to Lower Prices.

Chicago, Ill.—The movement to combat the high prices of meat spread rapidly, and is assuming a national character. Coincident with the spread of the movement came announcement from Milwaukee and Cleveland that the price of meat had dropped. In Milwaukee two retail butchers quoted potent meat at 10 cents per pound, while in Cleveland the price of meat had dropped. In Milwaukee two retail butchers quoted potent meat at 10 cents per pound, while in Cleveland the price of meat had dropped.

Dispatches from Baltimore, Kansas City, Omaha, St. Louis, Cincinnati, Pittsburgh and other cities told of the rapid growth of the movement. Cleveland, credited with the original start of the movement, now has 20,000 names enrolled in the crusade, while Kansas City reports 50,000.

The heads of the leading packing houses of Kansas City and Chicago refused to discuss the effect of the boycott on the price of meat. In Cleveland, Ohio—from an idea just in the lunch room of a big manufacturer here, the Cleveland strike against the eating of meat has grown to huge proportions. One hundred thousand people in Cleveland have now pledged themselves to abstain from meat eating for thirty days.

Practically every major city in Ohio has taken up the movement. In fact, ten thousand housewives are reported to have given up eggs until retail prices dropped from 48 cents to 25 cents.

Retail butchers have been compelled to cut down their working forces, some one-half and several have retired from business. In Pittsburgh, Pa.—Petitions pledging abstinence from meat for thirty days were signed by hundreds of housewives. The Iron City Trades Council, which has 25,000 members, is waiting the word from leaders before putting into effect resolutions adopted bidding the members to join the boycott.

Beef, lamb and pork have dropped in price on account of farmers bringing their shipments to town. From all towns in western Pennsylvania, eastern Ohio and West Virginia come reports of farmers' pledges. In New York City—Representatives of Swift & Co., Morris & Co. and the Sunday Company declined to be quoted concerning the "no meat" movement in New York, but took the attitude of laughing the whole matter off. Retail dealers, however, said the boycott seemed already on. Their sales had fallen off 50 per cent in the last fortnight.

Joseph Conant, president of a very large firm of wholesale dealers, said: "All the food products are high, but the whole thing is natural. When the supply increases our prices will go down. Prices are not artificial and cannot be in this business. The meat is killed one week and sold the next. How can you hold up that kind of price?"

On the other hand, representative dealers spoke as follows: "The price of beef has never been so high for so long. Yesterday when beef was high the people bought eggs or poultry. They can't do that now when chickens are 20 cents a pound, tripe, chicken 17 and 18 cents and pork fowls 12 to 14 cents. "Turkey is 18 cents a pound, just one-half. It will fall further if prices don't go down. Pork is phenomenally high and as for chicken, it will go higher. Pork tenders are 20 cents, the wholebirds and 35 cents retail. If this situation continues many dealers will be forced out of business. The trust will run in its own shoes. We are simply clerks for the trust now."

Chrysanthemums stand fourth in commercial importance among flowers. Only the rose, the violet and the carnation surpass them—and that chiefly because the chrysanthemum season is so short, while the others can be had from the florist nearly the whole year round. Greece gave us the name. Chrysanthemum means "golden flower," explains the Ardena. But the name was invented long before the big butter-yellow globes were known in the Occident. It referred to the prevailing gold in the small varieties that were known. Strangely enough, the first chrysanthemum brought into Europe was not gold at all, but purple. It was a small flower about two inches across, shaped like an aster. Somebody took it to Europe from China in 1792, and presto! the modern history of chrysanthemums was begun. London exhibitors have very particular notions of what constitutes the perfect chrysanthemum. Their ideal is the so-called "heavenly" type, which carries large, strange petals, pointing upward and overlapping each other in perfect precision. Americans think the "reflexed" type, with their showery of gold, white and other colors are equally beautiful and more interesting. The newest American bloom is seventeen inches in diameter, the smallest about the size of a collar button.

MANY KILLED IN WRECK. Canadian Pacific Train Plunged Into Spanish River.

North Bay, Ontario.—Death in all its most terrible forms blotted out lives in the wreck of the Canadian Pacific passenger train that plunged into the Spanish river. Forty-two died, including the engineer, and a stern onslaught, tearing down through the ice-covered surface of the Spanish river. Most terrible of all, the injured caught in the wreckage of one of the cars were burned to death. Some of them were drowned. An official statement given out here says that it probably was due to a broken rail.

TOM TAGGART SHOT. Democratic Leader May Lose One Eye as Result of Accident.

Natchez, Miss.—Thomas Taggart, democratic national committeeman of Indiana, was accidentally shot while hunting with his private secretary, Harry Horner, near Fayetteville, Ark., yesterday. Taggart, 40, was shot in the head by a .22 caliber rifle. He is now in a hospital in Natchez, Miss. He is a well-known figure in the democratic party and is believed to be in danger of losing his eye.

FARMERS URGED TO HOLD COTTON.

Slump in Futures Hasn't Affected the Value of Real Cotton.

THOUSANDS JOIN MOVEMENT

By Refraining From Eating Meat for Thirty Days Boycotters Hope to Lower Prices.

Chicago, Ill.—The movement to combat the high prices of meat spread rapidly, and is assuming a national character. Coincident with the spread of the movement came announcement from Milwaukee and Cleveland that the price of meat had dropped. In Milwaukee two retail butchers quoted potent meat at 10 cents per pound, while in Cleveland the price of meat had dropped.

Dispatches from Baltimore, Kansas City, Omaha, St. Louis, Cincinnati, Pittsburgh and other cities told of the rapid growth of the movement. Cleveland, credited with the original start of the movement, now has 20,000 names enrolled in the crusade, while Kansas City reports 50,000.

The heads of the leading packing houses of Kansas City and Chicago refused to discuss the effect of the boycott on the price of meat. In Cleveland, Ohio—from an idea just in the lunch room of a big manufacturer here, the Cleveland strike against the eating of meat has grown to huge proportions. One hundred thousand people in Cleveland have now pledged themselves to abstain from meat eating for thirty days.

Practically every major city in Ohio has taken up the movement. In fact, ten thousand housewives are reported to have given up eggs until retail prices dropped from 48 cents to 25 cents.

Retail butchers have been compelled to cut down their working forces, some one-half and several have retired from business. In Pittsburgh, Pa.—Petitions pledging abstinence from meat for thirty days were signed by hundreds of housewives. The Iron City Trades Council, which has 25,000 members, is waiting the word from leaders before putting into effect resolutions adopted bidding the members to join the boycott.

Beef, lamb and pork have dropped in price on account of farmers bringing their shipments to town. From all towns in western Pennsylvania, eastern Ohio and West Virginia come reports of farmers' pledges. In New York City—Representatives of Swift & Co., Morris & Co. and the Sunday Company declined to be quoted concerning the "no meat" movement in New York, but took the attitude of laughing the whole matter off. Retail dealers, however, said the boycott seemed already on. Their sales had fallen off 50 per cent in the last fortnight.

Joseph Conant, president of a very large firm of wholesale dealers, said: "All the food products are high, but the whole thing is natural. When the supply increases our prices will go down. Prices are not artificial and cannot be in this business. The meat is killed one week and sold the next. How can you hold up that kind of price?"

On the other hand, representative dealers spoke as follows: "The price of beef has never been so high for so long. Yesterday when beef was high the people bought eggs or poultry. They can't do that now when chickens are 20 cents a pound, tripe, chicken 17 and 18 cents and pork fowls 12 to 14 cents. "Turkey is 18 cents a pound, just one-half. It will fall further if prices don't go down. Pork is phenomenally high and as for chicken, it will go higher. Pork tenders are 20 cents, the wholebirds and 35 cents retail. If this situation continues many dealers will be forced out of business. The trust will run in its own shoes. We are simply clerks for the trust now."

Chrysanthemums stand fourth in commercial importance among flowers. Only the rose, the violet and the carnation surpass them—and that chiefly because the chrysanthemum season is so short, while the others can be had from the florist nearly the whole year round. Greece gave us the name. Chrysanthemum means "golden flower," explains the Ardena. But the name was invented long before the big butter-yellow globes were known in the Occident. It referred to the prevailing gold in the small varieties that were known. Strangely enough, the first chrysanthemum brought into Europe was not gold at all, but purple. It was a small flower about two inches across, shaped like an aster. Somebody took it to Europe from China in 1792, and presto! the modern history of chrysanthemums was begun. London exhibitors have very particular notions of what constitutes the perfect chrysanthemum. Their ideal is the so-called "heavenly" type, which carries large, strange petals, pointing upward and overlapping each other in perfect precision. Americans think the "reflexed" type, with their showery of gold, white and other colors are equally beautiful and more interesting. The newest American bloom is seventeen inches in diameter, the smallest about the size of a collar button.

MANY KILLED IN WRECK. Canadian Pacific Train Plunged Into Spanish River.

North Bay, Ontario.—Death in all its most terrible forms blotted out lives in the wreck of the Canadian Pacific passenger train that plunged into the Spanish river. Forty-two died, including the engineer, and a stern onslaught, tearing down through the ice-covered surface of the Spanish river. Most terrible of all, the injured caught in the wreckage of one of the cars were burned to death. Some of them were drowned. An official statement given out here says that it probably was due to a broken rail.

TOM TAGGART SHOT. Democratic Leader May Lose One Eye as Result of Accident.

Natchez, Miss.—Thomas Taggart, democratic national committeeman of Indiana, was accidentally shot while hunting with his private secretary, Harry Horner, near Fayetteville, Ark., yesterday. Taggart, 40, was shot in the head by a .22 caliber rifle. He is now in a hospital in Natchez, Miss. He is a well-known figure in the democratic party and is believed to be in danger of losing his eye.

NEW COMET IS VISIBLE

"Comet A 1910" Was Visible in the Southern States.

MORE BRILLIANT THAN VENUS

The New Comet Was Within 3,600,000 Miles of the Sun, But Is Now Receding.

Washington, D. C.—A new comet, outshining Venus in brilliancy, is visible in the sky. Along the Atlantic seaboard in the south, where the skies are not clouded, it can be most clearly seen. Although undetected by the scientists, it is unmistakably distinguished from Halley's comet, and the astronomers at the naval observatory here have trained their telescopes upon it night and day for nearly a week. It is now so close to the sun that the scientists have not been able to see it plainly by day, and the nights have been clouded so that their view has been obscured.

Early in the week, the comet was visible at Johannesburg, South Africa. The big telescopes which survey skies from the observatory on the heights at Georgetown have located the comet but three times, and the observers are doubtful as to whether its identity, by day light, when the sky has been clear, the sun has outshone it, and at night, when the scientists would have had the advantage of a dark background to make their observations, the sky has been clouded.

North Carolina Sees Comet. Asheville, N. C.—Blazing with many splendid, unfamiliar stars, it was seen in the western skies over Mount Pisgah. From the mountains to the southwest of the city, and from the highest points in the city proper, the spectacle was unusually fine. In the night quarters of the city the spectacle of the comet was seen by a number of people. It sounded a note of alarm, some of the older generation, it is said, being of the opinion that the world was coming to an end.

Charlotte, N. C.—A new comet, with an extraordinarily long and brilliant tail, was seen in the western skies over Mount Pisgah. From the mountains to the southwest of the city, and from the highest points in the city proper, the spectacle was unusually fine. In the night quarters of the city the spectacle of the comet was seen by a number of people. It sounded a note of alarm, some of the older generation, it is said, being of the opinion that the world was coming to an end.

It is "Comet A. 1910." Cambridge, Mass.—A cable message to the Harvard Observatory from Kiel gives calculation of the comet's distance as 3,600,000 miles. It is now receding. Made Stars Almost Invisible. Chattanooga, Tenn.—Thousands of persons who are brilliant comets in the southwestern sky. It appeared almost directly over the point of view of the observatory. The comet was seen by a number of people. It sounded a note of alarm, some of the older generation, it is said, being of the opinion that the world was coming to an end.

Like Searchlight at Macon. Macon, Ga.—For more than an hour a brilliant comet was visible in the sky. The comet was seen by a number of people. It sounded a note of alarm, some of the older generation, it is said, being of the opinion that the world was coming to an end.

South Carolina Watches Comet. Columbia, S. C.—Observers in Columbia, Greenville and Newberry report having seen a comet in the southwestern sky. Professor Cook, of the astronomical department of the University of South Carolina, observed the comet. The comet was seen by a number of people. It sounded a note of alarm, some of the older generation, it is said, being of the opinion that the world was coming to an end.

Millions Used Fighting Tuberculosis. New York City.—Eight millions of dollars were spent for the prevention and treatment of tuberculosis during the year 1909, according to the committee on tuberculosis of the National Tuberculosis Association. Of this amount \$4,257,500 was spent for the treatment of tuberculosis, and \$3,742,500 was spent for the prevention of the disease. The committee also reported that the number of deaths from tuberculosis in 1909 was 10,000.

Newly Paragaphs. The farm census for the last decade shows that on a national basis there are more than 100 million acres of new farms brought under cultivation was 10 million, and that the value of all farms in this country increased from \$29,512,000,000 to \$29,720,000,000, the greatest increase being in the value of the land. The census also shows that the number of farms in the United States is 10 million.

HOOKWORM DISCUSSED

Warning Sounded on Disease Which Attacks South Most Susceptible to Treatment

Atlanta, Ga.—The most serious infection disease in the south is that of the hookworm," declared Dr. Chas. Ward Stiles of the United States public health service in addressing the first national conference called for the study of the hookworm disease. While specimens of the hookworm have been found in the New England states, the middle west and northern states, the disease is most prevalent in the south Atlantic and Gulf states. On the negro is placed the responsibility for the presence of the disease in the United States. Dr. Stiles declared that the hookworm found here has been traced to the west coast of Africa, "and it undoubtedly is brought here by the negroes. It is a disease of the south Atlantic and Gulf states. On the negro is placed the responsibility for the presence of the disease in the United States. Dr. Stiles declared that the hookworm found here has been traced to the west coast of Africa, "and it undoubtedly is brought here by the negroes. It is a disease of the south Atlantic and Gulf states. On the negro is placed the responsibility for the presence of the disease in the United States. Dr. Stiles declared that the hookworm found here has been traced to the west coast of Africa, "and it undoubtedly is brought here by the negroes. It is a disease of the south Atlantic and Gulf states. On the negro is placed the responsibility for the presence of the disease in the United States. BULLOCH TIMES

ESTABLISHED 1892.

Published Weekly By The
BULLOCH TIMES PUBLISHING CO.

D. B. TURNER, Editor and Manager.

SUBSCRIPTION, \$1.00 PER YEAR.

Entered as second class matter March 23, 1905, at the postoffice at Statesboro, Ga., under the Act of Congress, March 3, 1879.

WEDNESDAY, JAN. 26, 1910.

"Don't believe but half that you hear"—and don't repeat that.

Give women the ballot and there will be no scarcity of campaign orators.

The scales of justice usually weigh correctly when honest judges handle them.

Most people don't admire a jolter, but he is head and shoulders ahead of a pessimist.

"Tapeworms removed by the foot," ought to be a good ad. for some of these specialists.

Don't promise to do more than you can perform and your reputation for veracity will be good.

"Kissing is overdue," says a Boston woman. The fires of love must be scorchers in the Hub.

People economise so much on the truth, it is no wonder they have to stretch it for some occasions.

Don't kindle a fire in a girl's heart until you are certain you can furnish the fuel to keep it going.

When you see a man with a red nose, you can usually be assured that it has not been done in water colors.

The Tennessee orator who gets intoxicated with his own voice wouldn't make much of a temperance talker.

Many men act as if they were "so many" that we should think their wives would feel as if they had committed bigamy.

Now comes some one and says that man used to have a tail. In which case, old Adam may have been quite a wag in his way.

If some woman took as good care of their husbands as they do of their poodles, the divorce mills would be shy many a grist.

Opportunity makes it a point to knock at every one's door, but it is a good idea to send in your street address to facilitate matters.

A Minneapolis pastor believes in furnishing a light luncheon for the inner man to be eaten while he is furnishing a feast of reason for the brain.

Young men, be careful of the girl with the décolleté gowns. She is more likely to turn you a cold shoulder than the girl with a warm head dress.

A new religion has been invented with only seven commandments. If the members of the new church keep the seven they will be pretty well up to the average.

Roosevelt's enemies says he is crazy. If this is the case, many people would suggest that it would be a good plan to lock through the insane asylums for the next president.

Some delivers into the mysteries of the evolution of man now claim that the human race originally began life in the form of a tree. There are a few "sticks" left to bear out the theory.

A German chemist has discovered a method of using the humble potato as a substitute for wood in the manufacture of lead pencils. The potato will make a new mark in the world.

When you get so you can let your wife rub her feet along your spinal column in the middle of winter without making any complaint, you can rest assured that you have reached that state of proficiency known as a model husband.

The Hook Worm Scare.

New Orleans, Jan. 20.—Dr. Joseph A. Dana, house surgeon of the Charity hospital at New Orleans, thinks there is a good deal of humbug about the hook worm.

"The very fact that Rockefeller gave a million dollars to help stamp out the hook worm has added much to the talk of the disease. Candidly, I think much of this talk is poppycock."

Such was the opinion rendered by Dr. Dana here today. "An Italian physician," continued Dr. Dana, "recently told me that the reports of the prevalence of this disease had the effect of scaring Europeans away from the south."

Dr. Dana's characterization of the hook worm scare as poppycock, accurately expresses the belief of ninety-nine one-hundredths of the people of the country, and the wonder is that our medical men have apparently become so enthused over Mr. Rockefeller's gift horse which promises to work such injury to the south.

There is one redeeming feature of the situation, however, and that is that there is apparent relief in sight from the germ campaign which has held the stage so long. With the danger of death from flies, cows' milk, drinking water, and the thousand and one other death snares held up before him, mortal man had almost reached a determination to end it all with the pistol ball where his brains ought to be. But relief has come in the shape of the hook worm, and life may yet be robbed of much of its horror—that is, if the elimination of corn bread will drive out Mr. Worm along with Mr. Germ.

After all, what's the use? There's got to be something to keep down the population; if not the hook worm, then what?

Pleasant for Democrats.

There is some mighty pleasant political news being handed about just now, to the effect that the "democrats are going to sweep the country in the next presidential election." This is the same cheering news that has been passed around regularly for the past sixteen years, and it never fails to cheer. There is always better times ahead for the democratic party, and we plod patiently on and hope for those better times.

Some years ago a crack-brain amateur actor opened up for a week's engagement in Statesboro. He circulated about the streets with announcements of his entertainment, which announcement closed with this injunction: "Look for the largest part next night."

By which he meant to encourage his audiences to believe that his entertainments were going to improve. They didn't, and the fellow walked out of town. Likewise the Eastern democrats are always optimistically holding out the promise of success next time, and we blindly hope that their promises will come true. But its time to do a little planning for ourselves. If there is going to be anything gained, the democratic party, which now means little more than the south, must adopt a new mode of procedure. The party must cut loose from those states that are hopelessly republican, and look for assistance to those who show a degree of independence. Meantime, the south might as well decide to appropriate to herself some of the honors of national nomination in 1912.

When the Hair Falls

Stop it! And why not? Falling hair is a disease, a regular disease, and Ayer's Hair Vigor, as made from our new improved formula, quickly and completely destroys that disease. The hair stops falling out, grows more rapidly, and all dandruff disappears.

Does not change the color of the hair.

Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says.

The little book in each package gives the formula of our new Hair Vigor, tells why each ingredient is used, and explains many other interesting things. After reading you will know why this hair preparation does its work so well.

THE REASON WHY

Vinol

IS THE BEST STRENGTHENING TONIC

for Feeble Old People, Delicate Children, Weak, Run-down Persons, and to Counteract Chronic Coughs, Colds and Bronchitis, because it combines the two most world-famed tonics—the medicinal, strengthening, body-building elements of Cod Liver Oil and Tonic Iron, without oil or grease, tastes good, and agrees with every one.

We return your money without question if Vinol does not accomplish all we claim for it.

W. H. ELLIS, Druggist, Statesboro.

Corn Growing at the Barber Shop.

The City Corn Club was assembled at the barber shop Saturday night, and business was good. While they were waiting to be scraped, the members began to grow corn for the contest recently inaugurated by the Bank of Statesboro.

Farmer R. J. Proctor, of Route No. 2, had the floor most of the time, but there were others present who also understood the art of corn growing. Farmer Proctor believed that the only way any farmer in Bulloch county could ever produce exceeding fifty bushels per acre would either be to count a few of his ears and estimate the balance, or to measure his corn with the shucks on in a mighty small barrel.

Farmer George Simmons knew a citizen who raised 96 bushels and 19 pecks on an acre, actual measurement; but, he admitted, there was \$1,000 worth of fertilizer used on the acre.

Farmer Lum Atkins had grown some corn himself one time—as good corn as any man; counted the hills, estimated the corn and it figured 48 bushels and 2 pecks. To make sure of his yield, he shelled the corn and measured it, and that's where he lost out—it only measured 24 bushels and 1 peck. "That's the folly of measuring corn," he said; "I never expect to do it again—not more than 4 quarts at a time."

A Tennessee horse trader was present, and it came his turn to speak. "Up in my country," he said, "they do raise corn. A friend of mine was too lazy to thin his corn out one year, and left five stalks standing to the hill; the seasons struck right, and every stalk bore two good ears—to ears to the hill! And what ears they were—twelve to sixteen inches long. Now, figure—"

"You say dat corn was sixteen inches long?" interposed Barber Hollis. "Gee, how I'd like to hab a bottle ob it!"

"Yes, I know what you are talking about," said Farmer Proctor. "I raised corn in Tennessee one season. I was in the army, stationed near Knoxville; every night I went out and raised an armful. Two ears to the stalk—that's nothing! Every stalk in that field had five ears, and the stalks were standing two in a hill. The prettiest sight I ever saw in the night time. Only fault, some of the corn was too old for roasting ears."

"Dat's zackly what I dun done in Jacksonville, one time," said Hollis. "I planted an acre on Bay street, down near Mr. Rosebush's. I planted dat same variety what you dun talk about—five ears to de stalk and five stalks to de hill. Golly, gemmen, dat sho' was corn! I put my rows three feet apart, and de hills eighteen inches, and two quarts ob 'Lewis's 99' under ebery hill. Dat sho' do seem 'stravagant, but dat am de only way to raise good corn. Well, gemmens, dat corn sho' was purty. How much did I mak? What! You ask dat? Can't you count? Dere was 7,350 hills to de acre, and five stalks to de hill; ain't dat 36,850 stalks ob corn? Den dere was five ears to each stalk—now

VERY BRIGHT FOR DEMOCRACY

GOING TO "SWEEP THE COUNTRY," SAYS CONGRESSMAN McWILLIAM.

(Atlanta Journal.)

The democratic party will sweep the country in the next presidential election, according to Benton McWilliam, former governor of Tennessee, who is in New York for a brief visit. "The democratic party's prospects brighten every day," said the former governor, discussing the political situation. "This is the undoubted and inevitable result of republican misrule, a \$2,000,000,000 congress and the worst of all, the tariffs."

"No wonder we have recurring panics. The great wonder is that we ever get over them. No wonder that a revolution has occurred out west. No wonder that the insurgents of the republican party insurge. The earthquake has just begun. The republicans are wholly to blame for the high cost of living which is causing so much complaint and consternation. If the democratic party will stand by its ancient principles, it cannot fail."

Notice of Sale of Land.

GEORGIA—Bulloch County.

Order and by virtue of a power of sale contained in a security deed executed by J. C. Jones to Alice Zetterower, dated the 21st day of November, 1908, and recorded in the office of the clerk of the superior court of Bulloch county in book 25, folio 40, the undersigned will sell at public outcry, at the court house in said county, during the legal hours of sale, to the highest bidder for cash, on the first Tuesday in February, 1910, the following property to wit: Two lots of land in the city of Statesboro, 1200th G. M. Bulloch county, Ga., and bounded as follows: On the North by Grady street, East by a ten foot lane, South by lot number three, owned by T. Rogers, J. L. Hiers and G. L. White, and West by Donaldson street. Said lots together being eighty-four feet and nine inches front on Donaldson street and running back one hundred and fifty feet to lane, and known as lots Nos. 1 and 2, in block 4, according to map recorded in office of superior court of Bulloch county, for the purpose of paying a certain promissory note for the sum of four hundred and fifty dollars, executed and delivered by J. C. Jones, on the 21st day of November, 1908, and due six months before the court house door in Statesboro, within the legal hours of sale, well to the highest bidder for cash the following described house and lot, to-wit: That certain house and lot situated in the city of Statesboro, county of Bulloch, known as the late residence of Mr. W. N. Hall, deceased, and bounded as follows: Fronting on East Main street thirty-five and one-half feet, and the line on the west side running back north one hundred and forty-nine and one-half feet, thence running east thirty-five and one-half feet, thence south a straight line one hundred and fifty-two and one-half feet, and bounded south by East Main street, west by lot of land owned by the Bank of Statesboro, north and east by lands of S. P. Olliff. Sold as the property of the estate of W. N. Hall for the purpose of distribution between the heirs of said estate. This fourth day of January, 1910.

W. T. SMITH, Administrator of the estate of W. N. Hall.

For Representative in Congress.

To the Voters of the First Congressional District of Georgia.

After careful consideration of the matter, and believing that the citizens of the congressional district are willing to trust the national affairs thereof to my keeping, I hereby announce my candidacy for congress to represent the First Congressional District of Georgia during the Sixty-second session, subject to the Democratic primary, or other method of election that may be prescribed by the democratic executive committee for the district.

I fully realize the great responsibilities of this office, and the duties of the holder thereof to his constituency. If the voters of the district see fit to elect me, my entire time and energy shall be devoted to the material upbuilding and development of its every interest, and with the consecration of my best efforts and ability, endeavor to build a monument to which the people of my district will not be ashamed to refer as the work of their representative in congress.

Every vote cast for me will be appreciated and remembered, and the efforts of my friends in my behalf will never be forgotten.

Yours faithfully to serve,
EUGENE J. GILES.

For County Treasurer.

For the office of county treasurer I announce myself a candidate for a second term. Thinking I am qualified for a liberal support, and prompt, and fill the office to the best of my ability.

Very truly,
J. DAN BLITCH.

For Solicitor City Court.

To the Voters of Bulloch County:

I am a candidate for the office of Solicitor of the City Court of Statesboro. If the people can see their way clear to give me their support at the next primary, I will support them in the event of my election, will give to the office the best service of which I am capable.

FRED T. LANIER.

For Tax Collector.

At the solicitation of my many friends in different parts of this county, I take this method of announcing my candidacy for the office of Tax Receiver, subject to the action of the next Democratic primary and soliciting the support of my friends and fellow citizens.

T. A. WILSON.

For City Court Judge.

To the Voters of Bulloch County:

At the solicitation of my friends, I hereby announce myself a candidate for judge of the city court of Statesboro, subject to the democratic primary.

In making this announcement I desire to express my high appreciation of the honor I have received at the hands of the citizens of my native county in the past, and I promise if I should merit a continuation of their confidence and they elect me to succeed myself as judge of the city court of Statesboro, that in the future, as in the past, I will administer justice without respect to persons and do equal rights to the poor and rich.

Yours respectfully,
J. F. BRANNEN.

To the Citizens of Bulloch County:

I will be a candidate for the Judgeship of the City Court of Statesboro in the next Democratic primary, and if elected will give the people a prompt, faithful and impartial administration of the law.

H. E. STRANGE.

For Tax Collector.

I take this method of announcing to the people of Bulloch county that I am a candidate for Tax Collector, subject to the Democratic primary of 1910. I ask the support of the voters and, if elected, I will do my duty as near as possible. Thinking the people in advance for what they may do for me, I am, respectfully,

C. W. FENNER.

I hereby make my announcement for the office of Tax Collector of Bulloch county, subject to the Democratic primary of 1910. I promise a faithful discharge of the duties to the best of my ability, if elected, and will appreciate the support of the voters.

MORRIS R. AKINS.

I hereby announce my candidacy for the office of Tax Collector of Bulloch county, subject to the democratic nomination of 1910. I shall appreciate the support of the voters and pledge my best efforts to a faithful discharge of the duties of the office.

P. A. HAGIN.

Thanking my friends for their kindness in the past, I hereby announce my candidacy for the office of Tax Collector of Bulloch county, subject to the action of the democratic primary in 1910. It will be my earnest endeavor to show appreciation to them by my best services in the full discharge of the duties of the office. Yours respectfully,

EDGAR A. COREY.

For Representative.

I announce my candidacy for representative in the Georgia legislature, subject to the democratic primary of 1910. I will be thankful to the people for their support, and if elected pledge to them my best services in the full discharge of the duties of the office. Yours respectfully,

J. W. WILLIAMS.

I have decided to submit my candidacy for the office of Representative in the Georgia legislature, and will thank my friends for their support in the Democratic primary. If honored with election to the office, it shall be my highest endeavor to faithfully represent my constituents in everything pertaining to their interests.

JOHN M. MURPHY.

For Tax Receiver.

At the solicitation of my many friends in different parts of this county, I take this method of announcing my candidacy for the office of Tax Receiver, subject to the action of the next Democratic primary and soliciting the support of my friends and fellow citizens.

T. A. WILSON.

I hereby announce my candidacy for the office of Tax Receiver of Bulloch county subject to the democratic nomination of 1910. I will appreciate the support of every voter, and will give to the office my best efforts to discharge the duties.

JOHN ANDERSON.

I am a candidate for the office of Tax Receiver of Bulloch county, subject to the democratic nomination. I have never before asked my friends for a favor of this kind, and I shall appreciate the support of every one of them in this contest.

J. E. ROGERS.

At the solicitation of many friends, I hereby announce myself as a candidate for the office of Tax Receiver of Bulloch county, and solicit the support of the people, subject to the democratic primary.

GEO. R. BRASLEV.

For Clerk.

I take this method of announcing my candidacy for re-election as Clerk of the Superior Court of Bulloch county and City Court of Statesboro, subject to the democratic primary of 1910.

The kindness of my friends in the past is fully appreciated. I have endeavored to do my full duty while in office, and it will be my high ambition to continue to do so if I am favored with re-election.

A. B. TRIMPLIS.

For Sheriff.

I appreciate the hearty support accorded me by my friends in the past, and hereby announce myself a candidate for re-election to the office of Sheriff of Bulloch county, subject to the democratic primary of 1910. If elected, I pledge fidelity to duty which has characterized the administration of the office heretofore, and will appreciate your support.

J. Z. KENDRICK.

joyed by old and young alike, being the first in several years. Snow fell to a depth of an inch or more, and remained upon the roofs of buildings throughout the day Saturday.

Attention is directed to the card of Drs. Kennedy & Simmons, of Metter, in this issue. Dr. Kennedy is one of the best known physicians of the county, whose growing practice has made necessary an associate in the profession, while Dr. Simmons, though a recent graduate, is well qualified in both medicine and surgery.

The stereopticon entertainment at the opera house is rapidly growing in popularity, and large crowds are attending afternoons and evenings. New slides are secured each week, and a splendid program is presented. Mr. D. A. Bragg has recently purchased a half interest in the entertainment, and is giving it his best attention.

The cases against the Johnson brothers, Messrs. Lester and Sam, growing out of their difficulty with Conductor DeLoach on the S. & S. passenger train Christmas week, were called in Bryan county court Monday. The young men pleaded guilty to the charge of assault and battery, and were fined \$150 each and costs. The other charges were dismissed.

L. H. Suddath is now a resident of Statesboro and is handling horses and mules at the Simmons road, where he will be glad to meet all his old friends and customers.

Appointments.

The following are appointments for Elds. Phillips and McWhirly, of Tennessee: Feb. 9th, Bethlehem; 10th, Red Hill; 11th, Ash Branch; 12th and 13th, DeLoach's; 14th, Anderson's.

Everybody is invited to come out and hear these very able ministers.
